

WELCOME

Welcome to term two! The Green Corridor is called 'Ngunnawal Life' in tribute to the original custodians of the land where our school stands.

YEAR TWO TEACHERS

- Burugun (echidnas) Emma Sculthorpe & Ali Dunn
- Bulburai (thunderstorm) Katarina Azdajic
- Gamberra (flowers) Beth Lessard
- Kanbi (fire) Thembi Compton

ENGLISH

- Formal reading groups will continue this term. These groups will continue to cater for individual student ability and focus on building and improving important literacy skills. We welcome parent helpers on Tuesdays to Fridays.
- In writing sessions, we will focus on the genre of narrative. This involves reading and writing personal narratives, events and stories. We will also work on editing our work and expanding sentences. We will be looking at a range of narratives in our inquiry units.
- Explicit handwriting lessons will focus on correct pencil grip, letter formation, size of letters and spacing of words.
- Spelling is incorporated in all aspects of the curriculum with explicit teaching of letters and sounds.

SPECIALISTS

Music: In music year two shall demonstrate their aural skills by learning to stay in tune and keep in time. They will continue their development in music literacy.

Drama: Year two students will make and present drama by exploring a story book about journeys and bringing it to life using role, character, movement, improvisation and situation. Students will identify some elements in drama and describe where, why and what happens in drama.

MATHEMATICS

In term two we will continue to develop mathematical skills through everyday life experiences. Maths will be hands on and interactive to support learning and ongoing consolidation of concepts.

This term our focus areas in mathematics will be: time (telling time to quarter past and quarter to), fractions (1/2, 1/4, 1/8), addition and subtraction and transformations of shapes or objects (flip, slide, turn).

INQUIRY

In term two and three we will be exploring the concept of 'Change'. The focus for our term two inquiry unit is 'The Past in the Present'. We will be investigating how and why the lives of people have changed over time while others have remained the same. Students will be comparing objects and places from the past and present and posing questions about these. We will consider how science has impacted our daily lives from the past to the present. Students will develop narratives about the past and communicate findings in a range of texts using language to describe direction, location and the passing of time. We will visit the Hall School House Museum in week five.

PE AND HEALTH

In PE and health we will focus on developing our Fundamental Movement Skills and will also be identifying how we can be active and how our bodies react to different physical activities. This term we will

FRIENDLY SCHOOLS PLUS

This term our focus is on self-awareness. We will be exploring Growth Mindsets and will also be looking at ways to positively interact with each other.
