

WELCOME

We are looking forward to a busy, productive and fun year. We have high expectations of the students as the new leaders of the school.

ENGLISH

In English students will be participating in literacy rotations, explicit lessons and intergrating the skills below into Science and HASS units of work. Our focus for this term will be:

- Book studies
- Spelling
- Vocabulary
- Grammar
- Editing
- Writing – Persuasive writing
- Speaking and listening

In addition, students will participate in consolidating their core reading strategies though ‘Good Fit Books’.

SCIENCE AND HUMANITIES AND SOCIAL SCIENCE (HASS)

Our first Science unit will involve students conducting a range of experiments where they will investigate the impact of changing variables. Students will write up science reports and will be communicating their finding using a variety of methods.

Our first HASS unit will be based on business. The title for the unit is *Small Business is Big Business*.

Key understandings include:

- World events impact on population and economic growth of a country
- The nature of small business
- The process of setting up a small business
- Roles and responsibilities in small business
- Simple monetary terms
- Creating and running a ‘Market Day’ stall

Our YEAR 6 Classes and Teachers are

- The Spuds** Susanne Armistead
susanne.armistead@ed.act.edu.au
- Brussel Sprouts** Amy McLeod
amy.mcleod@ed.act.edu.au
- Warrigal Greens** Lisa Murray
lisa.murray@ed.act.edu.au
Maureen Moffatt
maureen.mcclinton@ed.act.edu.au
- Caffea** Bruce Goodfellow
bruce.goodfellow@ed.act.edu.au

SPECIALISTS

Music Students shall continue to explore the use of rhythmic, pitch and form symbols in the music they perform and create.

Drama Students will work collaboratively to use the elements of drama to shape character, voice and movement through games, improvisations and in devised and scripted performances for an audience.

French In French, students will be learning greetings, how to introduce themselves and others, items in the classroom, colours and numbers during Term 1. Speaking and listening activities are a priority for us as we acquire the French language.

MATHEMATICS

The topics covered in Mathematics this term are:

- Addition
- Subtraction
- Multiplication
- Division
- Prime, composite, square and triangular numbers
- Problem solving
- Interpreting data
- Money and Finance
- Angles
- Constructing prisms and pyramids
